More POWER to Anchor Bay Entertainment

Anchor Bay Entertainment Australia is thrilled to announce the acquisition of a package of big budget mini series for DVD release from UK based **Powercorp** International Ltd.

The initial package includes **FLOOD** starring Robert Carlyle, Tom Courtenay, Joanne Whalley and David Suchet, the riveting political thriller **ARCHANGEL** with Daniel Craig in the lead role and the Emmy nominated and BAFTA award winning, **THE VIRGIN QUEEN** starring Anne-Marie Duff, Tara Fitzgerald and Ian Hart.

Anchor Bay will launch the Power label with the release **THE VIRGIN QUEEN** in July.

In addition, Anchor Bay has just scored Australia/New Zealand rights to the most expensive Chinese production (*US\$35 million*) of all time, the fantasy adventure epic, **THE PROMISE** from acclaimed director Kaige Chen (*Farewell My Concubine*). **The Promise** will be released as a rental premiere in July.

The new Woody Harrelson comedy **THE GRAND**, currently in limited theatrical release in the US, has been acquired for release locally late 2008.

Coming soon from Anchor Bay internationally and currently in production at Film Roman is the animated prequel movie to the EA video game **DEAD SPACE**, which will be an "event" release for the fourth quarter of this year.

Anchor Bay in Australia has also confirmed new seasons of the hit prime time CSI franchise with CSI: Miami Season 4 set for a July release and CSI (Vegas) Season 7 launch early December.
